

## WORK EXPERIENCE

### Power BI Developer Capgemini, Navi-Mumbai

01/2023 - Present

Achievements/Tasks

- Gathered data from MySQL, Oracle, SharePoint, ServiceNow, SAP, Excel, CSV, OData and other sources to produce actionable reports and dashboards.
- Developed 20+ reports and dashboards, contributing to a 30% increase in operational efficiency.
- Collaborated with cross-functional teams to identify data sources and optimize data collection, reducing report development time by 25%.
- Enhanced dashboard usability through interactive visualizations, increasing user engagement by 20%.

### Power BI Administrator Capgemini, Navi-Mumbai

01/2023 - Present

Achievements/Tasks

- Power BI Service Management:** Administering Power BI service environments, including workspace management, app creation, and security settings.
- User & Permissions Management:** Configuring security roles, user access, and managing dataset permissions at the workspace and report level.
- Monitoring and Troubleshooting:** Monitoring the health and performance of Power BI environments, troubleshooting issues, and resolving any Power BI-related errors or disruptions
- Capacity Management:** Managing Power BI Premium capacity and monitoring usage to optimize resource allocation and performance
- Data Gateway Configuration:** Installing, configuring, and managing Power BI on-premises data gateways for secure data access
- PowerShell Scripting:** Automating Power BI administration tasks using PowerShell cmdlets.

## EDUCATION

### Bachelor of Electrical Engineering Dr. Babasaheb Ambedkar Technological University

2021

## SKILLS

Power BI (Desktop & Service)

Power BI Dashboard Design & Development

Data Modeling & Data Warehousing

DAX (Data Analysis Expressions)

SQL

ETL Processes

Power BI Administration & User Management

On-Premises Data Gateway Configuration

PowerShell Scripting

Row-Level Security

Power Automate

SharePoint Integration

Data Visualization

Azure

Service Now

## ACHIEVEMENTS

### Power BI Implementation:

Successfully implemented shell scripts to automate data retrieval from Power BI workspaces, significantly enhancing data management efficiency and streamlining reporting processes

### Cross-Functional Collaboration:

Partnered with cross-functional teams to develop a comprehensive data analysis solution, resulting in a 50% increase in efficiency.

## CERTIFICATES

• PL-300 Certification (12/2024 - 12/2025)

Microsoft Certified: Power BI Data Analyst Associate
